

# Organizational Chart

### What Is an Organizational Chart

Organizational chart is a type of flowchart. It is used to show the composition, authority and function of an organization in a standardized diagram. It is often used in enterprise management. Organizational chart can help enterprise managers with operation planning, function planning and department setting.

### What Is the Organizational Chart Used for?

1. Establish a hierarchical authority structure.
2. Clarify the roles and responsibilities of people within the organization.
3. Clarify the division of labor and responsibilities of functional departments.
4. Establish standardized decision-making procedures.
5. Establish the cooperation and coordination mechanism of personnel and department.

### How to Draw an Organizational Chart?

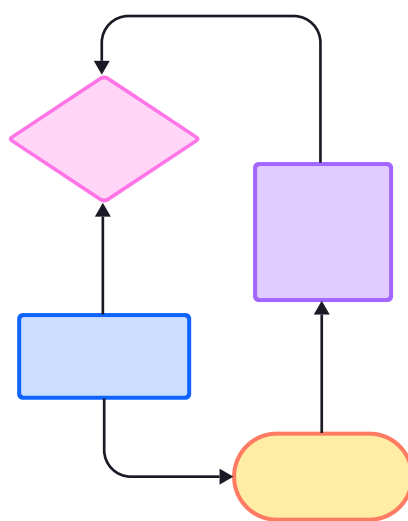

Boardmix provides various tools for drawing an organizational chart. You can choose Org chart shapes from the shape library on the left panel. Drag the element you want to the canvas and edit it. You can also use the template here directly.
